

Waste Management Policy

The Global Rail Services Limited Waste Management Policy reflects the company's commitment to waste management as part of our environmental policy and procedures. The policy is communicated to all of our employees and contractors and is displayed at work locations.

The aims of the policy are to:

- Identify and minimise waste and its effect to the environment associated with the company's activities.
- Comply with current waste legislation and where appropriate act in anticipation of future requirements in line with our company environmental legislation register and environmental impacts and aspects register.
- Set targets and deliver continual improvement in the management of waste management issues via key performance indicators and ongoing data collection of waste produced.
- Produce Site Waste Management Plans on all contracts as defined along with duty of care waste matrix data collection and checks on all waste movements. All waste or surplus arising's are assessed whether they can reused, recycled, recovered or require correct facility disposal.
- Review each element of works prior to commencement and implement valued engineering changes where possible and acceptable.
- Make sure all materials where possible are sourced from sustainable, renewable or recycled means and assess and monitor suppliers and subcontractors to make sure all company objectives and procedures are achieved.
- Liaise with the Environment Agency on a regular basis to review `best practice` and maintain a good working relationship including advice as and when required. Utilise other agencies and interested parties information for up to date advice and knowledge.

To achieve its objectives the company is committed to:

- Prevent pollution, reduce waste and to maximise the efficient use of materials and energy.
- Use sustainable, reusable or recyclable products where technically and economically viable.
- Ensure that all wastes, particularly hazardous or contaminated wastes, are tested, transported and disposed of in an environmentally acceptable manner, in accordance with statutory duty of care requirements.
- Minimise waste levels, waste nuisance, pollutants and disturbance to the public and local ecosystems, wildlife habitats and preservation of heritage.
- Review its activities and identify issues which could have a significant impact on the waste production.
- Encourage our supply chain and subcontractors to comply with this policy.
- Provide the necessary awareness and training to enable staff at all levels to understand and contribute to the implementation of this policy.
- Promote waste management via posters, notices and briefings.
- **Review, Reuse and Recycle!**

This policy statement outlines the company's commitment to minimising the adverse environmental impact from our activities.

Signed 9th of February 2018 for and on behalf of Global Rail Services Ltd
